

YURTS

Nestled among the fir, cedar and maple trees on the grounds above the cabins these accommodations have a secluded, natural feel. They have peek-a-boo views through the trees of the water, the islands and Mt. Baker. The three 16' yurts

(Mongolian tents on wood platforms) have a queen bed, a sleeping futon, indoor table and chairs and a private deck with chairs. Sleeps 2-4

people. The 20' yurt has a queen bed, a sleeping futon, twin bunk bed, indoor table and chairs and a private deck with picnic table. Sleeps 4-6. All of the yurts

have access to a cook pavilion with a Refridgerator/Freezer, electrical outlets, sink and a communal bathhouse with three private bathrooms. The bathrooms have token operated showers. The resort supplies guests with tokens at check-in.
